

MIT IN GREECE

JANUARY 2027

Study in Greece this IAP! From elaborate Bronze Age palaces to the temples of the Athenian Acropolis and the majestic sanctuary of Apollo at Delphi, and in museums of the environment, technology, and art, this program dives into the landscapes, cities, and crafted universe of the ancient Greeks—and the history and archaeology of Greece from antiquity to the present day. Learn how we reconstruct the past and how we debate its importance.
