

# MIT Global Teaching Labs at Suleyman Demirel University (SDU) in Almaty, Kazakhstan

SDU is a private university established on December 17, 1996. It is named after the former president of Turkey, Suleyman Demirel. It offers both undergraduate, graduate and professional education programs.

The university is now located in a new “Smart Campus” which was finished in 2011 to accommodate 7000 students. SDU is comprised of eight schools, including schools of law, economics and engineering.

MIT student instructors are invited by the School of Engineering and Natural Sciences. The school strives to provide non-conventional, innovative knowledge in the field of Information Technology.

MIT students are invited to develop and lead workshops in the following fields:

1. Data Science, Machine Learning
2. Deep Learning, Artificial Intelligence
3. Research and Innovation in CS
4. Management in Higher Education
5. Game Development

**We are looking forward to hosting you at SDU in January 2018!**
